

Embracing your Golden Mind: The power of thoughts

Our mind has the power to mould our personality, to shape our future, to create our destiny, and to determine who we are or will be. Our mind has the power that builds reality and not mere imagination. If harnessed, this power - which everyone possesses can make us heroes in our own ways. Our mind has the power to reverse what the outside world makes us believe in. If the outside world says that we are wrong, our mind has the power to make it right. If it says we are losers, we have the power to make ourselves winners. Moreover, this power will not only help us in identifying our personality but also equip us with the power to make our thoughts to intelligently take form in the world without. Kirimi Mitambo is a publishing and creative communications consultant. He is an avid reader and writer. He has worked with different organizations in the vast areas of publishing and creative communications. Recently, Mitambo launched a Personal Development Programme (PDP) called Mind Masters™. The programme aims at inspiring and coaching people on the power of the mind in shaping their destiny. In addition, it offers an opportunity for Personal Development Audit (PDA).
