

## DNA Failure: British Weapon Comics

Founded in the mid-2000s, Famicon is an English art collective currently composed of 12 members, among them Jon Chandler, Leon Sadler and Stefan Sadler. The collective, an English counterpart to Providences Paper Rad, has produced zines, web sites and exhibitions, specializing in an opaque cartoon language that is at once distinctly English and bizarrely universal. The first trade publication from Famicon, DNA Failure is a unique experiment in comics.
