

# The Lost World - An Arthur Conan Doyle Graphic Novel

Daily Gazette - The biggest sensation of the 19th Century! A three-member expedition goes to the Amazon jungle to verify unreal and yet undocumented discoveries of Professor Challenger. Three heroes, Professor Summerlee, Lord Roxton and reporter Edward Malone, set off for what could be the greatest discovery of the century! Will our adventurers confirm the existence of a land full of prehistoric monsters, or return empty-handed? Will they return to this country alive and well? The only thing we know it is that shortly after their departure, Professor Challenger vanished from the city. Did he escape from embarrassment or is there something else going on?
