

Princess KCs Foot Fetish Photo Collection Vol #1: Feet Pics Gallery #1

Hey, Im Princess KC and this is my first foot fetish eBook collection, which includes 100s of original photos of my bare feet, all taken by me or by my friends. This is not just an image search pasted into an eBook and stolen from the web. Every photo in here depicts me and my big, beautiful, size 11 feet! This isnt some random dude with a collection of foot photos whos trying to sell them to you. These are all 100% my hard work and effort spanning almost an entire decade. Youll know its my feet from the tiny star tattoo on my left foot, which is visible in most photos. I try to always have the star showing for any nay-sayers out there that doubt a woman could really be interested enough in this fetish to maintain her own site for so long. Coupled with my love for web design, creativity, BDSM and kink culture, and of course being spoiled and adored, you can rest assured knowing its all me running the show! After taking photos of my feet almost every day for nearly 10 years, Ive created quite the collection of my feet. Ive been a foot fetish blogger on a site I started originally back in 2007, and have maintained completely on my own ever since. It helped that I started as a web designer and photographer, and took those skills into doing this on the side. Ive had over 1 million views with thousands of regular readers from across the globe, many of whom send me gifts (especially high heels!) and donations for appreciation of being able to adore my perfect feet. Its been a really fun adventure thats allowed me to travel, meet interesting people, and have my toes adored both near and far! This is my first in the photo collections that Ill be releasing. Almost every single photo has never been seen before on my blog or elsewhere. Ive had so many that most of them were held captive until now! This first photo book is a compilation spanning many years. I focused on bare feet and sandals in this edition, and I diligently

collected thousands of images and chose many that have never been seen before. Some images are better than others, because I took almost all myself and it wasn't always the best cameras. You'll see my appearance, especially my hair, change a lot. I like to mix it up, and I also love to wear wigs. Every single photo in this album, except when friends appear with me, are of me and belong to me. I am the only one who's ever worked on this project.

I worked many hours on this eBook and it features well over 100 photos of my bare feet, soles, and toes in many different positions and angles, and from lots of interesting locations through out my world travels including Europe, Australia, Asia and the US. Please leave a review if you like the album, and it will encourage me to keep putting out more for you to view on your iPhone or other mobile phone, iPad or other tablet, PC, Mac, Kindle, iBook, or other eReader device! At the end, I've included my contact details for you to submit your own ideas for future photos for me to shoot and include in future releases! I'll release many more including one for past, current and future photos featuring foot slaves worshipping my feet, socks, nylons, heels, boots, foot travel, etc. I'm open to ideas for new photos. I already have some pretty wild ideas in the works that you're not likely to ever find anywhere else!
