

Creating Careers with Confidence

Creating Careers with Confidence inspires careers and empowers lives as it reflects on life story themes and uses the best of career development theory and practice. Its main focus is helping students discover careers that provide meaning and purpose in addition to income, balance, and fulfillment across various life roles. This self-paced workbook covers essential career management topics such as self-awareness, world-of-work information, person-job matching, networking, decision-making, resume writing, job interviews, and an activity-packed appendix that includes time and stress management strategies. Plus a portfolio summary facilitates academic advising that is useful for informed course selection. The book's tone is practical and engaging and its points are amplified by the various inspirational quotes throughout.
