

Van Goghs Sunflowers In-a-Box: Build Your Own Multi-dimensional Masterpiece!

Sam Ita is a paper wizard and once again, he has engineered a breathtaking work of art that is spectacular to look at, yet easy for the novice to put together. Following on the heels of his successful Christmas Tree In-a-Box, Ita's gorgeous new gift set provides everything needed to create a three-dimensional version of Van Gogh's sunflower paintings. The perfect size for a table or desktop, this cheerful display is simple to assemble from the pre-cut pieces inside; then, the box itself can become a stand. The eleven finished sunflowers will look lovely in any room, office, or cubicle, and make an ideal decoration for small living spaces, from a studio apartment to a dorm room. The kit also comes with a beautifully illustrated, 48-page book about Van Gogh and his art by Wendy L. Ciarci Jackson, as well as step-by-step assembly instructions.
