

## Ralf the Destroyer: Friend or Faux?

Ralf has been hired to destroy the planet Earth... What they didn't know when they hired him was that he's actually a really nice guy and kind of a procrastinator. Once on Earth, Ralf finds himself pushed around, ignored and in debt. Now Ralf must figure out if these humans are friend or faux... And what that makes him. Ralf the Destroyer is a newspaper styled, black and white, all-ages, Sci-fi, humor, comic strip. This is a 160+ page collection of the strips. Here's what others are saying: First thing I noticed was Scott's art style is that it's perfect for what his story is going for. For it is a quirky mix of gag a day comics mixed in with the storyline comics in the beginning and as the webcomic has gone on it started to gel together into a consistent flow. Especially in the growing supporting cast that the story is developing as time goes on. For as talented an artist he is he writes some downright fun stories.

If you're new to Ralf the Destroyer take some time and start from the beginning and see how Ralf's plans have fallen apart and led him into the lives of some really great folks and along the way you'll discover that one of those is you.
