

## Jante Universitet: Episoder fra livet bag murene. Bind 1: Den skønne facade (Danish Edition)

The curriculum entirely renounces professional competence and pedagogic insight: an irresponsible experiment conducted on the students. Both novel-like story and a systematic handbook, JANTE UNIVERSITET leads you into the academic jungle with its intrigues, absurd administration, low educational standards and the managements infringement on the staffs rights. Two short cuts offer you the basic information within two hours. An index helps you to use the trilogy as reference work on modern universitys problems. Language: Danish
